PLEASE REFER TO THE NOTES AT THE BOTTOM OF EACH PAGE AS YOU COMPLETE THE WORKSHEET

The basic purpose of this worksheet is to help you estimate your needed amount of insurance in the event of a major loss. Completion of this worksheet should be a collaboration between you and your accountant. Using your Profit & Loss Statement, your accountant should be able to complete the worksheet with actuals for the most recent 12 month period. You will need to tell him or her your anticipated level of the type of income and expenses described below for the upcoming 12 months of the policy period. e.g. Tuition up 3%; Research Grants up 10%; Payroll up 4 %. This worksheet must be completed on an accrual basis. Separate worksheets will need to be completed if multiple limits of insurance apply, e.g. separate limits per location. Indicate the inventory valuation method you use. All inventory calculations should be based on the same valuation method.

(E): Include ticket sales and other associated income.

(I): Do not include donations, fund raising and investment income.

(N): Ordinary Payroll expenses include payroll, employee benefits if directly related to payroll, FICA and Medicare payments, union dues, and Workers Compensation premiums.

Some points to consider in deciding whether to exclude or limit Ordinary (i.e. **other than** officers, deans, department heads, full time faculty and coaches and employees under contract):

- Would you lay off all your other employees in the event of a short interruption?
- Could you get them back when you re-open for business or would they have gone elsewhere?
- Do you have skilled or specialized personnel?

COINSURANCE: Coinsurance is a REQUIRED policy condition for Business Income Insurance. Agreed Value is an optional coverage that suspends, but does NOT eliminate the Coinsurance provision. SEE NOTES ON PAGE 4, TO BETTER UNDERSTAND COINSURANCE AND AGREED VALUE.

Consult your agent or broker to help you determine an appropriate Coinsurance percentage to be stated on your policy. One possible method to determine a coinsurance percentage is to divide Line R. by the sum of Lines O. and Q. e.g.: Line S = \$7,500,000, Line O + Q = \$10,000,000. \$7,500,000 ÷ \$10,000,000 = 75%.

Your valid options for Coinsurance percentages are shown below. When selecting the most appropriate option 'round down'. Circle one:

If Agreed Value applies: 50% 60% 70% 80% 90% 100% 125%

If Agreed Value does NOT apply: 25% 30% 40% 50% 60% 70% 80% 90% 100% 125%

DO NOT REDUCE LINE U. ABOVE BY THE COINSURANCE PERCENTAGE.

AGREED VALUE COVERAGE OPTION APPLIES - Signature is Required

I certify that this is a true and correct report of values as required under this policy for the periods indicated and that the Agreed Value for the period of coverage is \$ _____. The Coinsurance percentage to be used is _____ %. (Minimum is 50%).

Insured's Signature: _____ Official Title: _____

Date: _____

(P): Period of Restoration - Assume the worst possible situation, such as a devastating fire or explosion and the sprinkler system is impaired or there is heavy smoke damage requiring excessive decontamination, OR a catastrophe peril such as a tornado or hurricane occurs and severely damages your property. Your ability to resume normal operations may be impaired by one or more of the following:

1. Delays in obtaining Architectural & Engineering Plans, Zoning Variances, Building Permits, or approvals from Certification Boards.
2. Climactic conditions that would prohibit or postpone repairs or rebuilding.
3. Contractors or others you would depend upon to help you out are loaded with work and have no excess capacity.
4. You have unique, specialized, customized or imported machinery or equipment.

(S): After you are able to resume normal operations, how long will it take to get back to pre-loss income levels? Consideration should be given to loss of tuition for the following school year.

(U): A revised worksheet should be completed and submitted to us if your actuals begin to exceed your original estimated amount of needed insurance.

COINSURANCE – INSURANCE TO VALUE REQUIREMENT

In the event of loss during the policy period, we will determine the actual business income exposure from policy year inception to the date of loss. To this actual amount we will add an appropriately projected amount of income exposure for the remainder of the 12 month policy period, comparable to the sum of Line P. and Line S. of this Business Income Worksheet. This more current annual amount will be multiplied by the Coinsurance percentage you selected for your policy. If the policy limit you carry is less than this more current required amount of insurance, your loss payment will be reduced.

Example: Policy Period = 01/01/20xx to 01/01/20xy Date of Loss = 08/01/20xx
 Policy Limit = \$3,000,000 Coinsurance = 50%
 Loss = \$1,000,000

Actual Business Income from 01/01/20xx to 07/31/20xx	=	\$5,000,000
Projected Business Income from 08/01/20xx to 01/01/20xy	=	<u>+ \$3,000,000</u>
More Current Annual Amount of Needed Insurance	=	\$8,000,000
\$8,000,000 x 50% coinsurance	=	\$4,000,000
Policy Limit of \$3,000,000 < \$4,000,000 required, Therefore, \$3,000,000 ÷ \$4,000,000	=	.75 factor
.75 x \$1,000,000 loss	=	\$750,000 payable
Coinsurance Penalty	=	\$250,000 of loss not payable

AGREED VALUE

This provision suspends the Coinsurance provision but does not eliminate it. In order for Agreed Value to be in effect, a signed business income worksheet must be submitted to and accepted by us prior to a loss.

A new worksheet must be submitted if you (1) change the limit of insurance mid-term, or (2) at the end of each 12 month policy period. Failure to submit a signed current worksheet will automatically reinstate the Coinsurance Provision for the period going forward.
